

At Carlex, we make more than automotive glass. We make people's lives safer and more comfortable along their journeys. Every day, we unite as a team to deliver quality products and innovative solutions that earn our customer's trust and build lasting relationships.

Carlex Glass is a daughter company of Central Glass, Tokyo, a stock listed corporate entity with 6500 employees worldwide. Carlex Grevenmacher supplies automotive glass to German premium OEMs. We are the only production plant of Central Glass' automotive business in Europe with about 550 employees. Those are representing our core Values: Safety, Customer Focused, Teamwork, Excellence and Trust.

We have an immediate opening for a: **Program Manager** (M/F/D)

Your tasks in our Team:

- You will professionally lead an interdisciplinary project team and assume complete project responsibility as the main contact person for our customer
- You will be the interface between customer and Carlex
- You will be responsible for the planning, execution, documentation and evaluation of your project, while adhering to milestones, deadlines, budget and quality standards
- You will also be in charge of achieving the financial project objectives as well as constantly monitoring and report of the project progress
- As program manager you are responsible for the compliance with APQP process and standards as well as for the implementation of requested change requests
- Together with your project team, you will develop forward-looking problem-solving strategies
- You need to provide direction and support to the Project Team and assure project deliverables
- You will be the interface between your team, the management and the customer, whom you will regularly inform about changes and the project progress

Our benefits

- Team spirit and a great working atmosphere
- Unlimited employment contract
- Flexible working hours through flextime arrangements and partly home office
- Continuing education opportunities (e-learning, training and seminars)
- Personalized development program
- Increasing amount of responsibility, in relation to experience and capability
- An attractive salary package, commensurate to achievements
- An actively practiced corporate culture based on our values:
 - Safety, Customer Focused, Teamwork, Excellence, Trust

Your profile

- Successfully completed studies (Bachelor/Master/Diploma) in the field of industrial engineering or, mechanical engineering, automotive engineering or comparable qualification
- Relevant professional experience in project/program management in the automotive supply industry
- Organizational and analytical talent as well as a solution and customer-oriented way of working
- Enthusiasm and a high level of initiative
- Good communication and interpersonal skills
- Affinity for the automotive industry
- Desire to work collaboratively in a dynamic environment
- Proficient in the use of common office programs (PowerPoint, Word, Excel)
- Good written and spoken German and English, French an advantage
