

FANUC

FANUC Europe Corporation is the European Headquarter, located in Luxembourg. Our 200+ employees provide a full range of services to our 20 European subsidiaries. This includes European Sales and Service, Technical Support, Supply Chain, Spare Parts and Repairs, as well as Marketing, Human Resources, IT, Legal, Compliance and Administrative Support.

Internship I Customisation Operations

Duration: 6months, full-time

Place of work: FANUC Europe Corporation, Contern, Luxembourg

Preferred start: as soon as possible

Become a key player in the International Customisation Team within the European Customisation and Distribution Center - Contern, Luxembourg. As the central hub in Europe, the team is responsible for the final touch before our products are shipped to our customers.

Your tasks will include:

- Customisation Planning – Scheduling - Productions: The role is essential to provide a smooth operation for the Customisation Execution team:
 - Pre-Capacity planning based on coming orders from customers
 - Weekly production planning of customisation activities based on planned units
 - Managing Production change based on priorities and urgency of orders
 - Communicating with internal colleagues in Sales Support and Material Management for follow up and availability checks
 - Communication with local European offices for updates and status of customisation orders
 - Following up production statuses and proceeding with JDE order processes with LSP and internal Warehouse
 - Supporting execution teams using external tools (Product configurator) and work on documentation
- Warehouse Operations: The role is essential to provide smooth operations for the Warehouse Team
 - Managing in/out logistics process for warehousing activities
 - Ongoing communication with internal colleagues (Purchasing, Customs, Dispatch teams)
 - Following up and prioritisation of warehouse operations
- Following up to supply requirements of ECC, e.g. packing materials, etc.

Your profile:

- Degree from technical school or university in the area of business management, Supply Chain, and/or Logistics
- MS Office Applications
- Experience Oracle JDE would be an asset
- Experience with ERP systems
- Eager to work in a young and international team
- Flexible, open minded to changes and challenges
- Ability to handle short time changes and priorities
- Strong and positive communication skills
- Fluent in English
- Any other European languages are considered as asset
- **QUALITY:** Strong focus on customer requirements, satisfaction and service excellence
- **RESPECT:** Flexible and resilient personality, exchanging the values within an international team via correct communication channels
- **PASSION:** Strong focus on high technology product as well as company's directives

Driving license and car is a personal advantage for ease of travel, but not required for the job.
