

# FANUC

FANUC Europe Corporation is the European Headquarter, located in Luxembourg. Our 250+ employees provide a full range of services to our 28 European subsidiaries. This includes European Sales and Service, Technical Support, Supply Chain, Spare Parts and Repairs, as well as Marketing, Human Resources, IT, Legal, Compliance and Administrative Support.

## Internship I Robotics Customisation

Duration: 4-6months, full-time

Place of work: FANUC Europe Corporation, Contern, Luxembourg

Preferred start: as soon as possible

Compensation: as per legal standard

Become a key player in the International Customisation Team within the European Customisation and Distribution Center - Contern, Luxembourg. As the central hub in Europe, the team is responsible for the final touch before our products are shipped to our customers.

### Your tasks will include:

- Preparing installation and setup of our robots and machines with accessories and peripheral equipment before they are sent to our customers across Europe to meet required customer specifications
- Ensuring correct technical information about the set-up and installation of each product in frame of quality level
- Using various technical equipment according to each product's need
- Using MS Office, ERP and special IT tools within the process
- Being responsible for own assigned work/project from beginning till end
- Providing support within the organisation according to direction of team superiors

### Your profile:

- Enrolled to vocational training or university programme as Industrial Mechanics / Electronics / Mechatronics or equivalent technical qualification
- Basic knowledge and preferably practical experience in the field of electrical and mechanical engineering
- Experience on industrial robots and CNC machines is a big plus
- Fast learner and able to learn 'on the job'
- Self-motivated and independent personality, able to work independently as well as in teams
- Able to adapt to an always-changing role and conditions
- Fluent in English
- Any other European languages are considered as asset
  
- **QUALITY:** Strong focus on customer requirements, satisfaction and service excellence
- **RESPECT:** Flexible and resilient personality, exchanging the values within an international team of almost 30 nationalities, via correct communication channels
- **PASSION:** Strong focus on high technology product, as well as company's directives

*Driving license and car is a personal advantage for ease of travel, but not required for the job.*
