

# Intern Investment Management and Investment Controlling (m/f/d) in Luxembourg

Allianz Investment Management Luxembourg

Are you passionate about investments? Interested in shaping the Real Estate investment strategy of Allianz in the coming decades?

For various Allianz insurance companies from different countries, we maintain several investment vehicles (LuxCos) for Equity, Real Estate and Infrastructure investments in Luxembourg with an investment volume exceeding 30bn EUR. To administrate and manage these vehicles, Allianz founded a team of investment professionals, providing investment management, accounting and controlling services. To amplify our services, we are searching for an Intern Investment Management / Investment Controller on in the Real Estate department. For you this can be an exciting opportunity to become part of our investment team, managing a truly global portfolio in a dynamic context with plenty of opportunities to learn and develop.

## Your new duties and responsibilities

- Contribute to the development of AIM's global investment strategy with focus on Real Estate in collaboration with internal and external asset managers
- Analyze and evaluate investment opportunities in Real Estate and Alternative Equity space based on risk/return criteria
- Prepare assessments and recommendations for relevant Investment Committee incl. coordinating the decision making process
- Monitor, analyze and steer existing investments in the Allianz' Real Estate portfolio
- Cover an asset class throughout the whole investment value chain and improve data processes locally through digitalization & automation for efficient set-up
- Monitor portfolio and performance as key factors for investment decisions and coordinate performance measurement processes
- Ensure efficient controlling of investments structures, including further development and implementation of effective controlling tools, methods and procedures
- Analyze financial and business performance of Allianz' Real Estate investments for investors with regular financial reporting and identification of key drivers, risks and opportunities
- Support in other finance related topics, i.e. hedging strategy, accounting questions
- Conduct regular company valuations according to IFRS in close cooperation with finance and asset management teams
- Support company-wide, cross-functional projects

## Key requirements / Experience / Skills

- Excellent university degree in relevant field of study (economics, finance or similar) or final stage of respective studies
- Written and oral fluency in English required, working knowledge of German or French is a plus
- Deep interest and affinity for finance and investments, esp. for alternative investments
- High level of motivation, excellent communication skills, willingness to take on responsibility, strong team spirit and analytical skills
- First experience in a fast-paced international work environment and ability to multi-task is a plus
- Willingness to continuously learn and curiosity
- Excellent MS office skills, particularly in Excel and PowerPoint
