

Product Development Trainee (m/f/d)

Location: Trier / Coming soon – keep an eye on our careers page jobs.jti.com

Your job mission:

This three-year training program is designed to build up your competence and to prepare you for future career opportunities in the Tobacco Product Development Center (TPDC). As part of a structured program, you will gain in-depth expertise in all technical aspects of tobacco and product development. You will also develop a comprehensive understanding of the tobacco industry's needs, strategies and essential key drivers. From day one, you will take on meaningful responsibilities in daily operations and special projects. The program includes personal development and functional training opportunities.

Your profile:

- **Relevant educational background:** University degree in Natural Sciences, Food Technology, Agronomy or a related field.
- **Practical experience:** Initial scientific work experience, preferably in an FMCG environment, e.g. food, agricultural or tobacco industry.
- **Valuable knowledge:** High interest in scientific fields and with a strong aptitude for technical matters / High interest in actively participating in sensory evaluation of tobacco and tobacco products / Solid analytical skills, familiar with statistical methods / Fluent in English, both written and spoken; additional languages are a plus / Proficient in MS Office and SAP.
- **Special strengths:** Ability to work effectively in an international environment / Excellent communication and presentation skills / Sensory evaluation capabilities for tobacco and other products.
- **Suitable personality:** Positive, confident and proactive attitude / Open-minded, adaptable and eager to learn / Willingness to travel.

Your benefits:

- **Your team:** You will work in an open and international working environment with approx. 60 nations at the Trier site.
- **Your remuneration:** Above-average pay with a current starting salary of 4.981,20 € gross monthly salary with a guaranteed annual salary increase in the first 5 years as well as a 13th and 14th monthly salary. Individual company pension scheme and capital-forming benefits.
- **Your meals**: Our subsidized company canteen and numerous snack and coffee vending machines ensure your physical well-being.
- **Your appreciation:** You will receive regular feedback from us and, as your personal safety is important to us, we also protect you in your private life with our JTI accident insurance.
- **Your work-life balance:** You should enjoy your work! That's why we offer you 30 days of vacation.
- **Your development:** We focus on your personal development. We support you with a wide range of internal training courses as well as external training and development opportunities that are tailored specifically to you.

Have we aroused your interest?

We expect to be filling positions again over the course of the summer. Keep an eye on our careers page and create your applicant profile now to discover suitable opportunities right away.
